

ALEGA

design Vico Magistretti 1970

Vistosi

Model LT_CE

Alega is a table lamp that blends timeless elegance with a refined retro inspiration. Its graceful silhouette recalls familiar shapes, reinterpreted with a light and contemporary touch. A transparent glass base supports a glossy white glass diffuser that softly spreads the light, creating a warm and welcoming atmosphere. Equipped with three traditional light bulbs, Alega offers a perfect balance of form and function, where apparent simplicity conceals thoughtful proportions and refined details. Chrome-plated finishes lend a contemporary accent, subtly enhancing the lamp's timeless design.
