

PUPPET RING

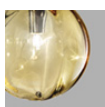

design Romani Saccani Architetti Associati 2019

Vistosi

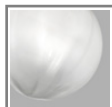

Modello SP 7A_CE

La collezione Puppet Ring nasce dall'idea di creare una montatura accostando anelli con diametro differente, su cui poggiano sfere in cristallo di tre dimensioni. Anche le nuove tre sospensioni dalle dimensioni e forme diverse mantengono un'estetica leggera ed elegante coniugando in modo etereo vetro cristallo, fumè, ambra e bianco sfumato con finiture oro e nickel nero satinato.

FINITURA VETRO

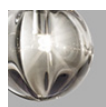

AMTR
ambra trasparente

BCSF
bianco sfumato

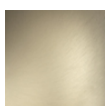

CRTR
cristallo trasparente

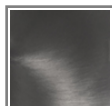

FUTR
fume' trasparente

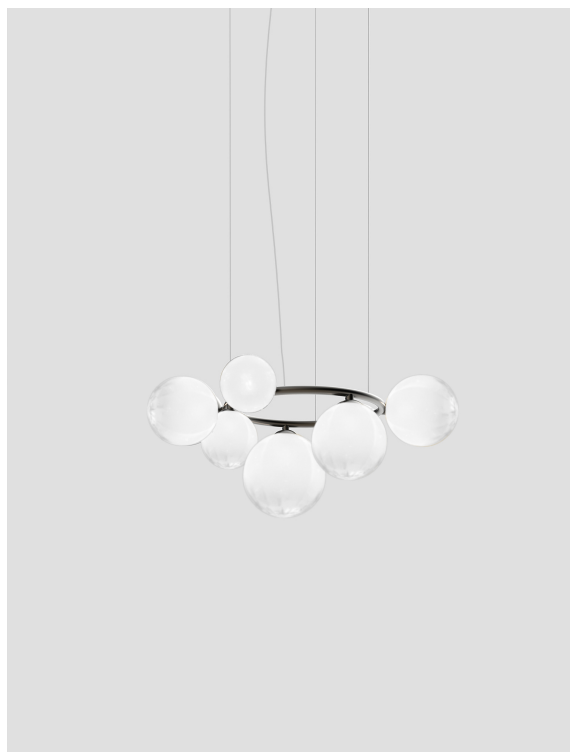

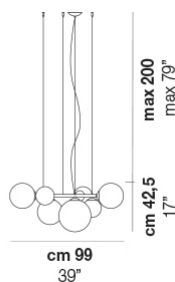

FINITURA STRUTTURA

BKS
oro satinato 3

NNS
